www.selvao.com

Your guests will love this cosy bed inspired by the nest of the Oropendola bird. Hanging from a tree or from a tripod, the Pendola can be set up anyway!

FEATURES

🌿 **A cosy nest:** it will comfortably accommodate a couple with a double bed (140 x 190 cm) or a family with a round mattress. A large space under the floor canvas allows for luggage to be stored away.

🌿 **Removable and easy to set up:** Whether to hang it in a tree or to a tripod, you can set up the Pendola in less than an hour's time with our detailed instructions. The anchoring system and the winch help manage this accommodation, which can be safely kept in the air.

🌿 **Attractive price:** return on investment in less than a year.

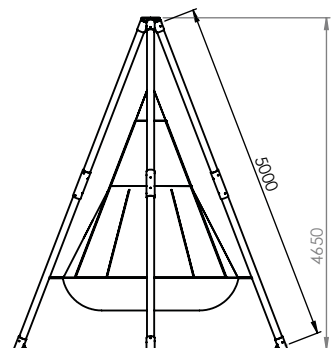

🌿 **Environmental and durable:** the PVC fabric is waterproof and recyclable, it requires very little maintenance (water).

🌿 **Multifunction:** Use the Pendola as a truly unusual accommodation, an additional bed or a very large hammock to relax by the pool. Be flexible for the well-being of your guests.

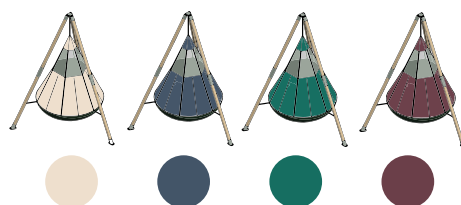

- Diameter: 2.4 m (approx. 95 in)
